“Kompetisi Klip-2”

Using Flipgrid to upload your videos.

****If you cannot access Flipgrid due to your school restrictions, see [Using Google Drive to upload your videos](#)** Only teachers should access the official competition Grids below. **Students should not be given links to the grids.****

You have two options:

- 1) Have students create videos in your own Grid, download the two top entries for each category (Share, Download video), then upload to Flipgrid.
- 2) Create videos another way, then upload to Flipgrid.

Actions	Name	Date	Replies	Feedback
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Luka M 0 views	Jul 2, 2020	-	-
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	James S= bodo 1 view	Jul 2, 2020	-	-
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	Ethan K 1 view	Jul 2, 2020	-	-

As an alternative to submission via Flipgrid.com, you can now submit your videos using google drive. Anyone with a google account has access to their own google drive for storage and can share whatever they have stored using a link.

Here is how you do it:

1. Open your own google account or create a new one if you don't have one.
2. Use the 9 dots in the top RHS of the page to select the “drive application
3. [Click here](#) to watch a video on how to upload and share files.
4. Upload your video onto google drive
5. Share the video file directly to kk2@wilta.org in order to submit your entry.
6. Don't forget to also email the [submission form](#) (one form per school) to kk2@wilta.org within 48 hours of uploading your videos.

“Kompetisi Klip-2”

Beginner editing tips

The following functions in iMovie are all you really need to make the most simple video:

1. **Import** content
2. **Create** a new **file**
3. **Add audio/video**
4. **Detach** audio from the video
5. **Trim** the video clip
6. **Save/share** project

Intermediate editing tips

When you have mastered the basics, try exploring your film editing program and experiment with the following functions (use “Help” to learn more or search for a tutorial online):

- Add **credits** or **titles** to put text over the top
- Add **transitions** between the video clips
- **Split clip** to cut the clip to delete or edit a subsection
- **Slow motion/fast forward** (look for the turtle/rabbit icon)
- **Crop** to resize the screen area
- **Ken Burns effect** to create a zoom in / zoom out or panning post-filming
- **Green/blue screen** to overlay two video clips (requires understanding of green screening technique)
- **Side by side** and **picture in picture** to have two video clips playing at the same time
- **Instant replay** and **rewind** (look under the ‘modify’ tab)
- Add **maps, backgrounds** or your own **images**
